**Models supported: Fossil, Nuclear, and Industrial Turbines and Generators**

**Brands Supported: GE, Siemens, Westinghouse, Alstom, Dresser, Toshiba, Mitsubishi, Brush, Elliot, Fuji, Terry, BBC, and more**

Locations: Central, Eastern, Southern, Northern USA

Positions available: (8)

Timing: Immediate

Pay Rate: \$40-\$55/ Hour, Subcontractors (1099) options also available

Other compensation: Overtime, Per Diem, and Sales Incentives

**Company Info:**

Independent Turbine Consulting is the largest USA-based independent provider of turbine-knowledgeable personnel, dedicated to providing highly-experienced personnel at reasonable and sustainable rates. We primarily supply personnel to OEM, 3<sup>rd</sup> party, and Utility clients to support outages or supplement their in-house workforce during turbine outage planning and execution.

We provide our employees with generous compensation options, based on experience level, positive references, professional network strength, and proven value to clients. We also reward employees for identifying and helping bring in new projects. Our work is typically at power plants in the Central, Southern, Eastern, and Northern USA, as well as occasional assignments in Canada or South America.

**Key responsibilities of the role include:**

- Have a basic knowledge of gas and steam turbine-generators and components
- Be capable of using and reading precision tools, such as inside and outside micrometers, dial calipers, depth micrometers, dial indicators, and periphery tape measures
- Be familiar with the use of small hand tools and have own set of hand tools up to and including 1 1/4"
- Committed to safety and quality
- Be familiar with the use of pneumatic and hydraulic tooling
- Be able to read mechanical prints and clearance diagrams, and complete datasheets as directed

**Responsibilities**

- Coordinate tasks according to priorities and plans
- Allocate general and daily responsibilities
- Supervise and mentor workers and tradespeople
- Guarantee all safety precautions and quality standards are met
- Monitor attendance of crew and complete accurate timesheets

---

**Required experience and attributes:**

- Minimum of 3 years in a supervisory or lead role
- Minimum of 8 years in mechanical trades
- High School diploma or equivalent
- Ability to use a computer and smart phone
- OEM training and experience with GE, Siemens, Alstom, Mitsubishi, Toshiba, or other OEM turbine generators
- Reliable, High Energy self-starter
- MUST HAVE LEGAL AUTHORIZATION TO WORK IN USA (US Citizen, work visa, etc.)
